

Molly and Max's Password Safety Tips

Using **strong passwords** is important to help protect you while you enjoy the online world. Here are some tips on creating **super safe passwords**.

Make your password eight or more characters long

Use a silly sentence for your password

Include letters, numbers and symbols to make it harder to guess

smartJ3!ly43

Change your password regularly

Never use a nickname, a pet's name or personal information

Never reuse a password

Don't forget ...
never share your password with friends!
