

## KS4 home learning weekly timetable 2025-2026

| Subject         | Expected time to complete |
|-----------------|---------------------------|
| English         | 1 hour                    |
| Maths           | 1 hour                    |
| Science         | 1 hour                    |
| Option subjects | 30 minutes                |

### Home learning expectations:

The expectation is that learners revise independently if no official home learning is set. By regularly self-quizzing, learners will become more independent learners and develop good learning habits.

Students are strongly encouraged to attend P0, P6 and the Wednesday mid-week specials sessions. The library is also open daily before and after school (not Wednesday or Friday after school).

**All home learning will be set with a timely deadline and will be recorded on Arbor. Teachers will record on Arbor if this has been completed on time.**
