

**KS4 home learning  
weekly timetable  
2025-2026**

| <b>Subject</b>  | <b>Expected time to complete</b> |
|-----------------|----------------------------------|
| English         | 1 hour                           |
| Maths           | 1 hour                           |
| Science         | 1 hour                           |
| Option subjects | 30 minutes                       |

**Home learning expectations:**

All home learning must be completed on time. Regular revision challenges will take place during KS4 and learners must take ownership of this learning and plan their time effectively.

The expectation is that learners revise independently using revision guides or learners' own notes if no official home learning is set. By regularly self-quizzing, learners will become more independent learners and develop good learning habits.

Learners are encouraged to attend P0, P6 and the Wednesday mid-week specials sessions. Learners can also access learning resources and receive support by working in the library which is open before and after school (not Wednesday after school). *Please refer to the extracurricular programme for full details of clubs and home learning support sessions.*

**All home learning will be set with a timely deadline and will be recorded on Arbor. Teachers will record on Arbor if this has been completed.**
