

Year 10 Maths Foundation
Exam board - EDEXCEL

- Solving Linear equations review
- Changing the subject of the formula
- Linear Sequences review
- Pie charts
- Worded problems week

- Solving linear equations graphically
- Solving linear simultaneous equations
- Congruent triangles
- Similar shapes
- Enlargements review
- Averages & sampling

- Two-way tables
- Estimation
- Error intervals
- Linear inequalities

Assessments

- Half termly End of unit tests
- Termly full assessments
- First formal set of PPEs in summer term

Autumn Term 1

1

- Pythagoras' theorem
- Angles in polygons
- Algebraic Language
- Simplifying expression review
- Index Laws review
- Expanding brackets review
- Substitution review
- Factorising review

Autumn Term 2

3

- Angles on parallel lines
- Bearings
- Plans & elevations review
- Isometric drawing review
- straight line graphs review

Spring Term 1

Spring Term 2

5

- Frequency tables
- Frequency trees
- Probability
- Tree Diagrams

Summer Term 1

6

Summer Term 2

Skills Development, Key knowledge:

- Solve problems involving right angle triangles
- Accurately measure angles using a protractor
- Accurately draw different types of graphs
- Apply algebraic skills to angle problems
